

Magnet Tester H30 Series

- State of Art, **Indigenous Equipment** for testing of Magnets.
- Wide Material Type Testing—**Ferrite, AlNiCo, Rare Earth—NdFeB, SMCO₃, Sm₂CO₁₇**
- ASTM/ IEC /IS Standard Compliance.
- Measurement Accuracy—**1%**.
- Measurements up to **18000 Oe**
- Magnet Shape—Rectangular, Ring, Cylinder, Segments
- Measurements with Surround Coils and Pole Coils
- **BH Loop Graphical Display.**
- Calibration Traceable to **International Samples.**
- Variety of Magnetic Properties Tested.
- **Fully Computerized System, Very Low Measurement Time, Data Automatically Generated and Saved.**
- **No Operator Skill Required, Easy Installation and Operation.**
- All Accessories Supplied for **Smooth Running.**
- **Detailed Test Reports** for Design Applications.

FERRITES INDIA

Products We Manufacture:

BH Loop Tracer Based:

Epstein Frame Tester

Core Loss Testers

Laminated Toroidal Core Tester

Solid Rod and Solid Toroidal Core Tester

Single Sheet Tester

Rotor Testers

Magnetizers

Demagnetizers

Custom Made Special Purpose Systems

Digital Gaussmeters

Digital Fluxmeters

Flux Coils

Helmholtz Coils

Rogowski Coils

Hall Probes

Pole Detectors

Reference Magnets

Zero Field Cavity
